

Water Sort Puzzle Documentation

(v1.4)

Thank you anyone who bought this package. Please feel free to ask me any question about **Water Sort Puzzle**

You can only publish games on Google Play, App store and other mobile stores.

If you have purchased resources, please contact your email address

dotmobstudio@gmail.com get the unzip password thank you

1. Overview

Water Sort Puzzle is ready to publish game templates of the most popular genre for mobile platforms. You do not need to know any programming language to configure and use it. It is very easy to fill it with your own tasks, make UI changes, start to gain experience in promoting your game and earning money.

2. Requirement

- Unity **2022.3.16f1** or higher
- The template works best with the version used by our developers (Unity **2022.3.16f1**).
So if there are any issues with your newer version, please let us know. If we can't solve them, you are required to use the same Unity version with us.

3. How to import a project ?

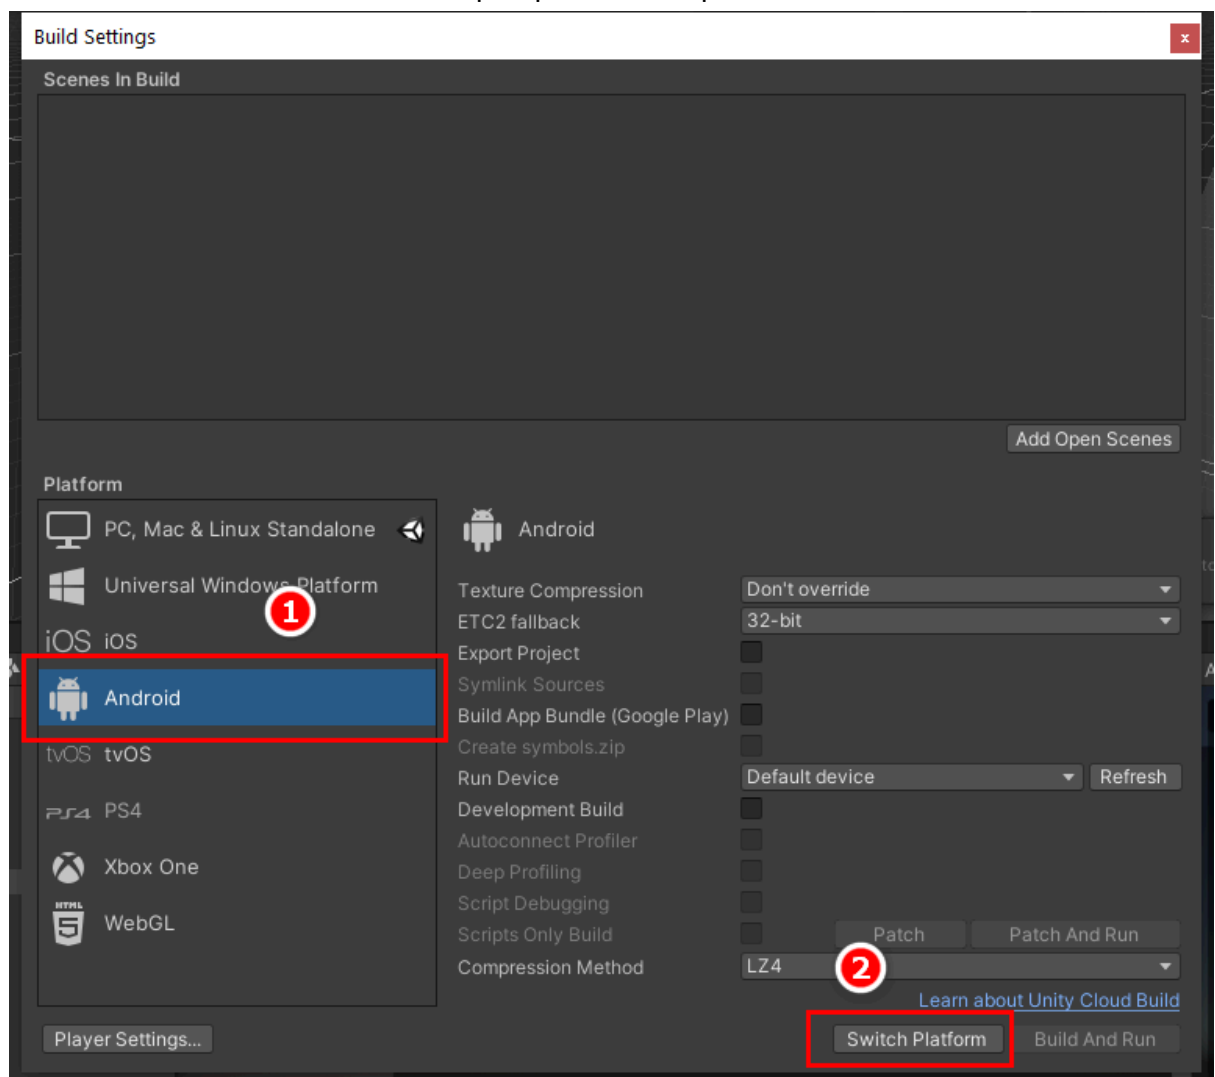

- Open Unity **2022.3.16f1** , click “Open project” → Choose “WaterSort_v1.4” folder → Wait until the import process completes.
- Double click on **Loading** in Assets/Scenes folder → click Play button.

4. How to build for Android (64 bit complaint Google Play)

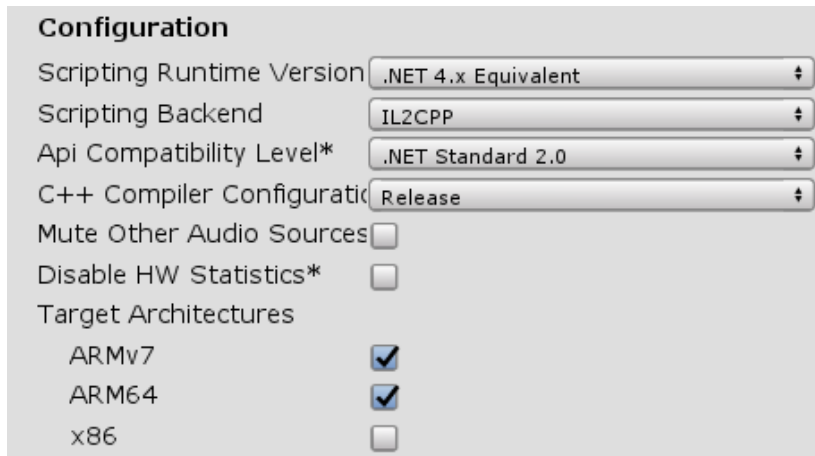

- Refer tutorial :

<https://learn.unity.com/tutorial/publishing-for-android#5ecf930aedbc2a002088a2cc>

- Click File/Build Settings : Choose Add Open Scenes, Android Platform -> Click Switch Platform and wait until the import process completes.

- Go to Player Settings and look at the Configuration section:

- Scripting backend: Set to IL2CPP
- Uncheck x86

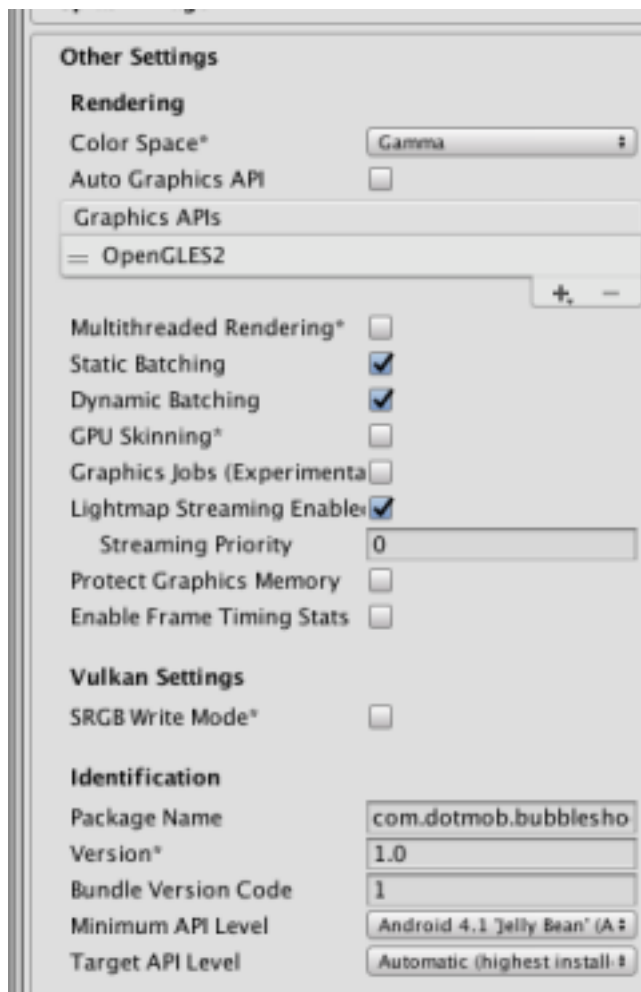

Building for Android sometimes get errors because of your environment. If you encounter any errors, please make sure that your building environment is set up correctly by creating new empty project and then build. If it failed to build, then you have to find a way to fix it.

If you succeed to build an empty project and still encounter error when building my project, then:

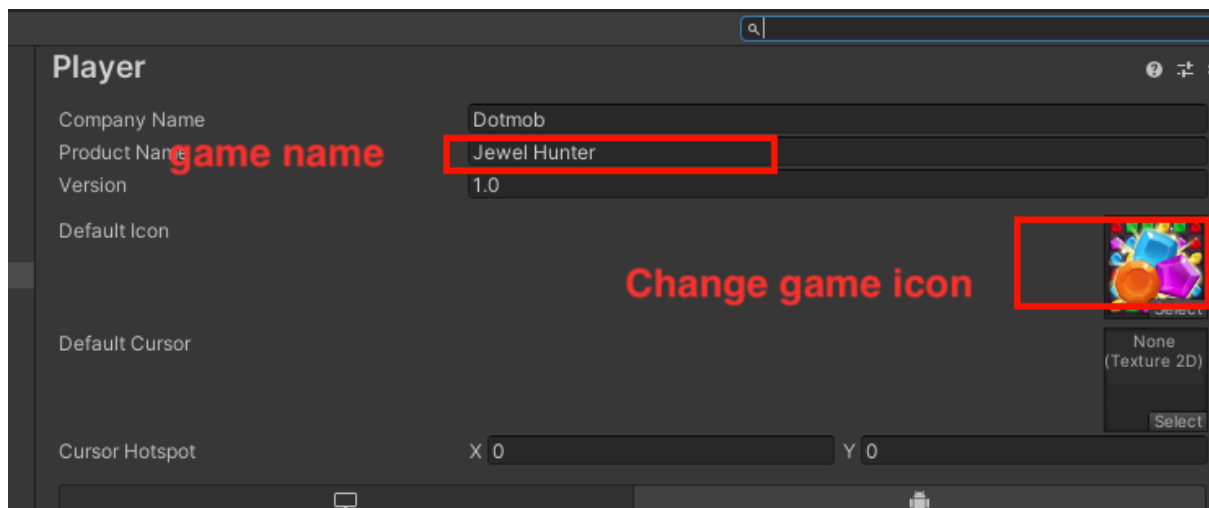

- Use the same Unity version with us (Unity **2022.3.16f1**)
- Feel free to contact us

5. How to change package name

Click File/Build Settings : Choose Player Settings . On the Inspector panel, click Other Settings. And edit your Package Name

- Change game name ,icon

6. How to CONFIG(Admob, In-app purchase)

You are required to achieve this before doing anything else. This is where you can: - Edit game settings (Admob, In-app purchase, ...)

To see the **GameSettings**, please click the menu Dotmob/GameSetting→ look at the Inspector at the right side.

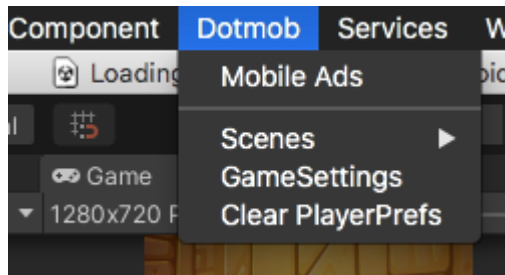

Click checkbox Inapp button to change package name id, in-app id

A screenshot of the 'Game Settings (Game Settings)' window. It contains several sections with configuration options and checkboxes.

| Section | Option | Value / Status |
|--------------|------------------------|---|
| App Ids | ios App Id | [Empty text field] |
| | Android App Id | [Empty text field] |
| Ads Settings | Count Interstitial Ads | 2 |
| | Admob Setting | <ul style="list-style-type: none">ios: <input checked="" type="checkbox"/> Banner Id: ca-app-pub-3940256099942544/6300978111, Interstitial Id: ca-app-pub-3940256099942544/4411468910, Admob Rewarded Id: ca-app-pub-3940256099942544/1712485313Android: <input checked="" type="checkbox"/> Banner Id: ca-app-pub-3940256099942544/6300978111, Interstitial Id: ca-app-pub-3940256099942544/1033173712, Admob Rewarded Id: ca-app-pub-3940256099942544/5224354917 |
| In App | Remove Ads Id | com.dotmob.removeads |
| | Private Policy | <input checked="" type="checkbox"/> Url: https://www.google.com |

To see the **CONFIG Mobile ads**, please click on the menu **Dotmob/Mobile Ads** → look at the Inspector at the right side

Change your Admob id and click **Save**

Select the ad providers you want to enable for each platform:

Android Admob

Download Admob SDK

Test Mode ☐

Test Device ID

App ID

Banner ID

MRec ID

Interstitial ID

Rewarded Video ID

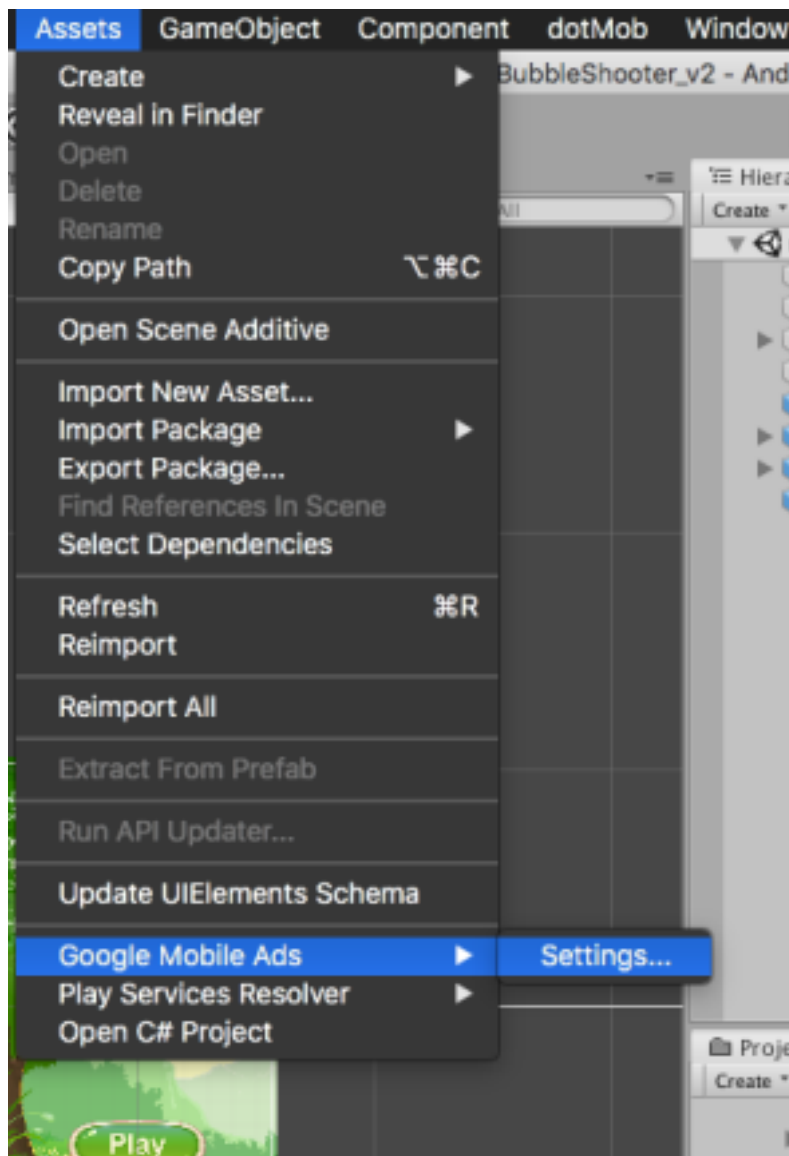

Rewarded Interstitial ID

App Open ID

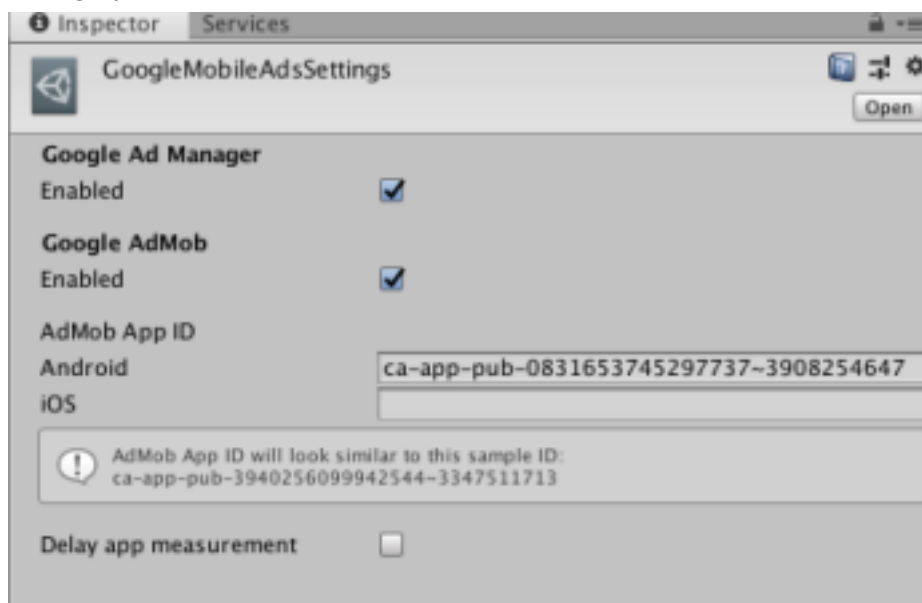

Directed for children ☐

iOS None

Save

Change your Admob App ID

Note : You can check admob works in 2 ways:

- Use your admob id (authenticated account) and add test devices:

<https://support.google.com/admob/answer/9691433>

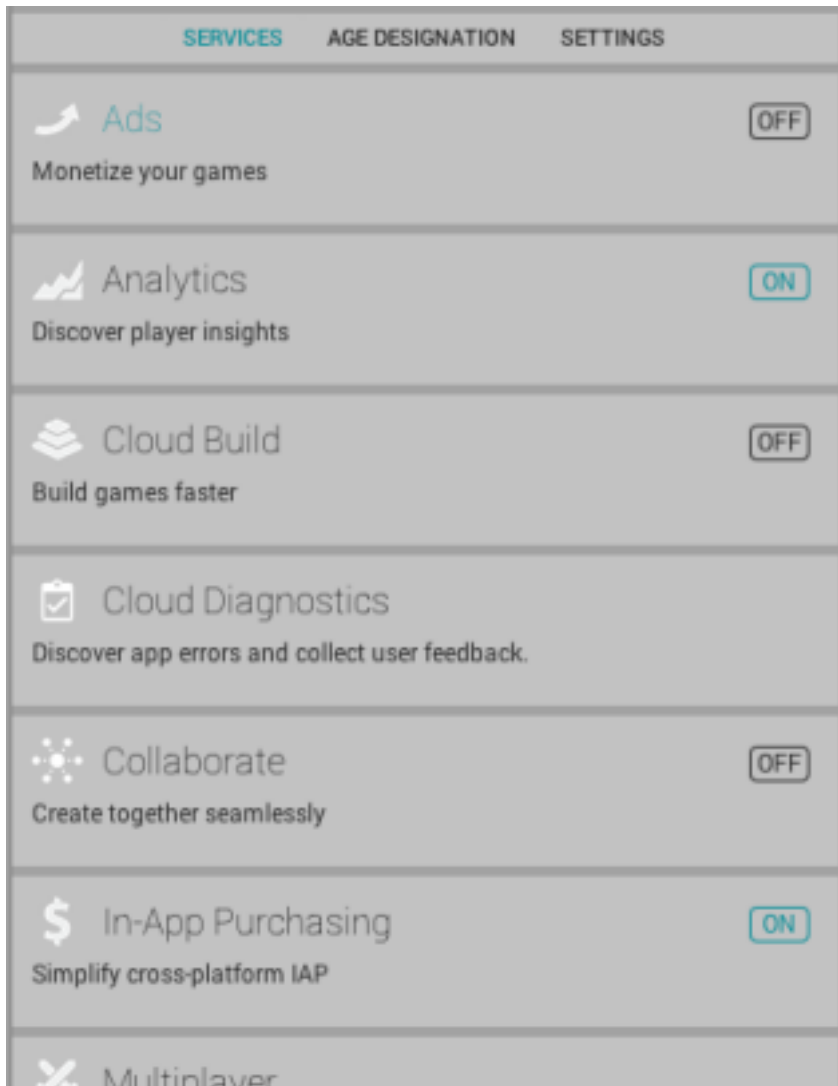

- Use Google's admob test ID: <https://developers.google.com/admob/android/test-ads>

Alternatively, you can check including the required Google Play dependencies in your Unity project. Ensure the required AAR and JAR files are located in the Assets / Plugins / Android directory. You can perform dependency resolution by selecting Assets -> external dependency manager -> Android Resolver -> Force Resolve in the Unity editor

7. How to Set up in-app purchase

<https://youtu.be/ynZmLfa51cg>

- Open Window → General → Services in Unity
- Click on “New link” → select organization → click “Create”
- Click In-App Purchasing → Click “Continue”

Enable Inapp (in menu Dotmob/GameSetting) to see the Purchaser settings

- When you register in-app products on stores (Google Play, iTunes), make sure that the product ids are identical in both places (the stores and Unity).

- In-app purchase only works on your device (Android, iPhone ..) **after** you publish the game.

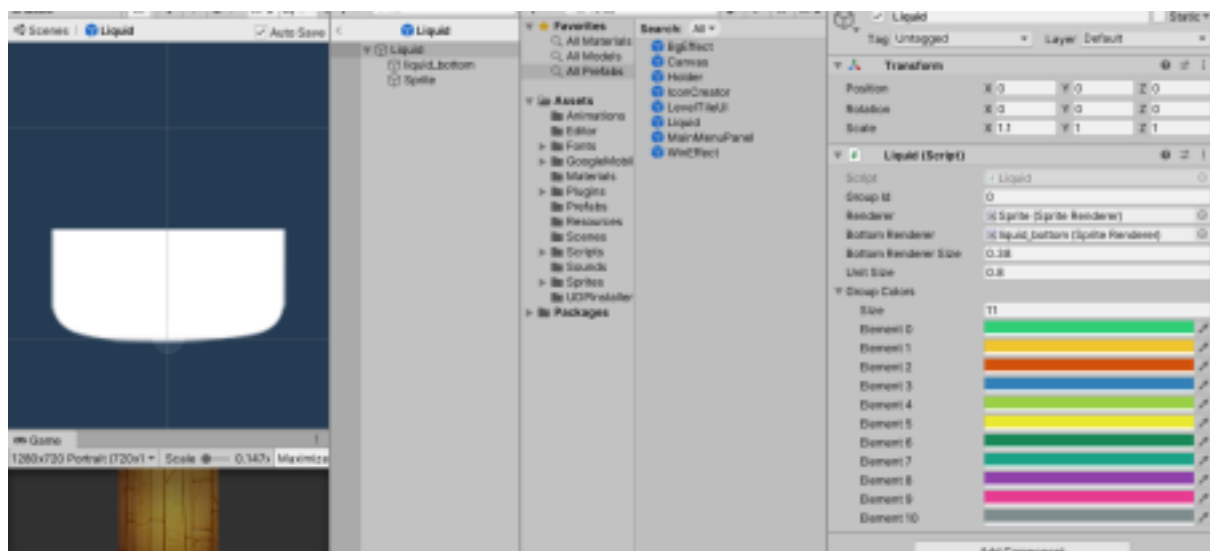

8. Support Testing

Please click the menu Dotmo/Clear PlayerPrefs to reset the game from the beginning

9. How to reskin

Almost all graphics are located in the folder Assets/Sprite. You need just replace your art in this folders, keep the same name, same size in PNG format:

To change water color. Double click Liquid prefab and change color
